Ornaments are provided in six types of four colors each. Build as many of the ornaments you like in your favorite colors to decorate your tree.

Before starting assembly:
Writing the number of each section on its back side before cutting out the sections is highly recommended.
(* This way, you can be sure which section is which even after cutting out the sections.)

- Indicates where sections should be glued together.
- Indicates where to insert sections. Do not glue the sections together.
- Indicates sections that should be glued first, then cut out.

■ Assembly Instructions: Three A4 sheets (No.1 to No.3)

* Build the model by carefully reading the Assembly Instructions, in the parts sheet page order.

***Hint:** Trace along the folds with a ruler and an exhausted pen (no ink) to get a sharper, easier fold.

Since there are no glue tabs on this side, determine the appropriate gluing spot by inspection.

Fold the glue tabs gently when gluing (folding with excessive force will make it hard to glue the pieces in place).

This part will be easier to glue in place if you hold it down with tweezers or a ballpoint pen.
