wooden axle
1:1

covers of cockpit from foil 1:1

from wire
1:1

Stiffen parts grey arrow marked --- 11

At first put fuselage 1, 1a, 2, 3 together. Glue cover of engine 4, cover of exhausts 5 and into tail parts 6-8 and komplex 9, 10. Now you complete fuselage 11-14 and tail 15-17. You built engine with propeller 18-29 and interior 30-48. You can use cover of machine-guns 49, 50. Into fuselage glue part 51. Follow covers of cockpit with antenna 52-59, details 60-63 and tail gear 64-68. Into wing 69 glue parts 70-86 and then wing close. Now you glue covers 87 and machine-guns 88, 89. At least complete main gear 90-101, parts 102 and bomb rack 103-105 with bomb SC250 106-109.
