STABLES

- Cut, fold and score where noted.
- Glue together the various pieces
- Take the main building and glue the base tabs evenly onto the straw tile.
- Glue the roof base tab to the back of the main building. Bend down the roof supports and glue them evenly to the sidewalls.
- Insert the two remaining stall dividers and glue them at an equal distance apart (Refer to photos)

Cut Through Black Lines and Borders
Score and Fold Along Dotted Lines
Score and Fold on Reverse Side
