Cut out all bottom lines of every wall		
as straight as possible, to ensur	as straight as possible, to ensure it will stand straight	
on it's floorplan, without seams. Please make your own flaps		
to glue the walls to the base.	give, each well it's own	
First glue all walls together, then give each wall it's own re-enforcement, made out of extra thick cardboard.		
Then measure and cut the flaps, gluing them into position.		
Important : make sure <u>all</u> corners are exactly 90 ° .		
Left façade		
Note:all dark grey lines mu each wall. After completion, no lines sh
