

## "FirePlace"

- Cut, score and fold where noted. Be careful to note the reverse side scoring on the inner fireplace section.
- Start by gluing the inside vertical tab to the back wall of the fireplace. Use a ruler to secure this tab in place as your fingers wont fit.
- Glue the top tab to the inside of the fireplace wall
- Take the fire insert and sandwich glue the fire section to the white tab.
- Apply a thin coat of glue to the backside of the brick wall and glue to the inside of the fireplace being careful to keep the piece centered with the opening.
