PEAKED TOPPER

↓ 1hr ↑
completion time

To add further visual diversity the peaked tower topper nicely changes the skyline.
Used it on its own or combine it with one of the square toppers for even more variety.

Cut, score and fold the peaked tower as noted.

Glue the two tower sections together as shown.

Glue the final tower flap in place.

Create a thick border along the inner edge of the lower tower to conceal any whitespace overhang.

Phew...that was hard ;)
