

WORLDWORKS GAMES
ArenaWorks™

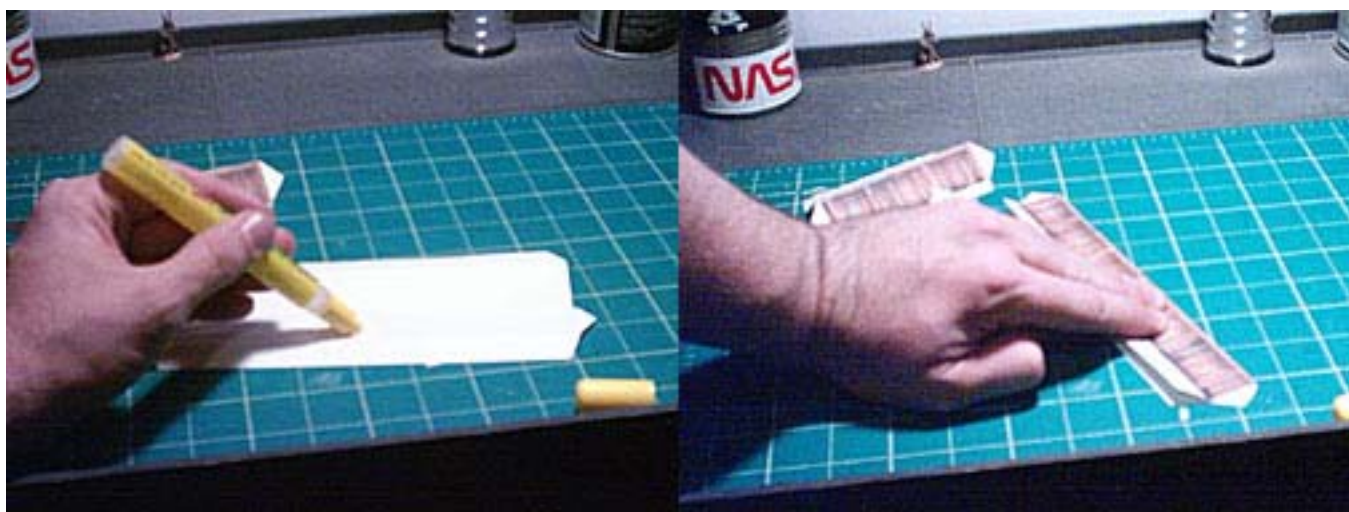

MODEL TYPE:	FENCES
DIFFICULTY:	1 out of 5
APPROX BUILD TIME:	Quick - 5 to 10 minutes <i>(Time may vary depending on skill level)</i>
DUPLICATIONS (Suggested):	4 to 6 copies (optimal)
EDGING COLOR:	Black felt <i>(What is "Edging"? Please refer to the included "Beginners Guide".)</i>

Fences for all! Use them for crowd control, jousting or blocking off parts of the arena. Go really nuts and make a maze! Three heights are provided; short, medium and tall. Each comes in both four-inch and eight-inch lengths. For more fencing options, see the "Spina" fence and large 3D wall.

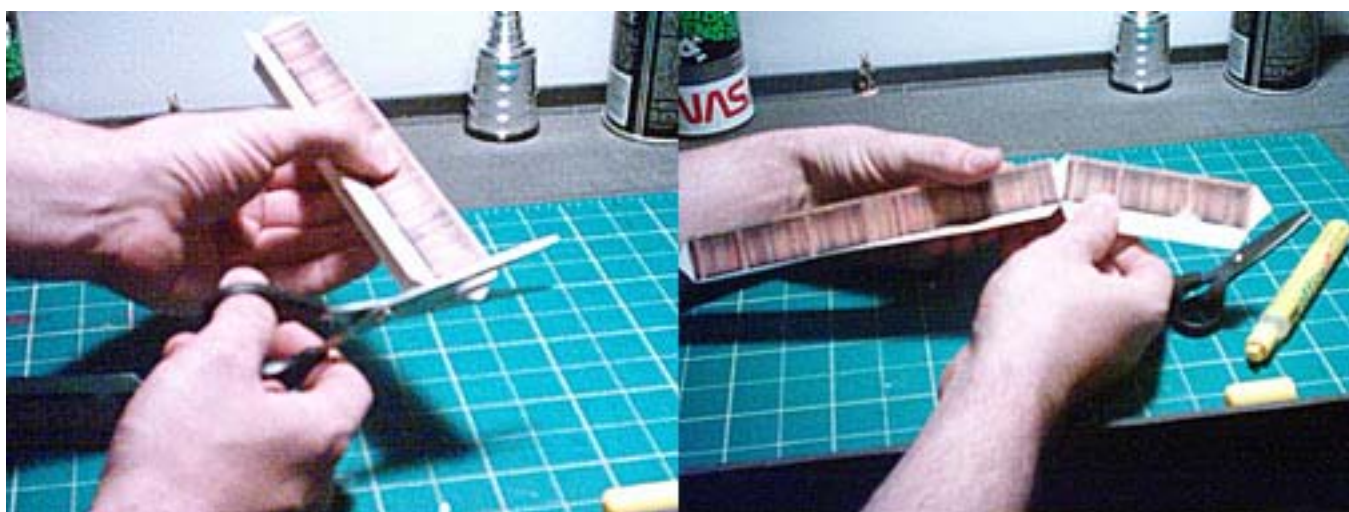

STEP 1:

Cut and score. Apply glue to the inside of the fence and fold over. Press hard until dry, or if you are making lots use weights to hold them flat.

STEP 2:

To join sections of fence, slot the triangular tabs into the end of a section that has had its tab cut off as shown below. If you make a square you can probably dispense with the support tabs on the bottom and trim them off entirely.

STEP 3:

The tall fence goes together the same as the others, cut out the pointy bits on top if you like. If you make a square you can trim off the support tabs on the bottom
