This simple box fold is duking it out with the Ladder for easiest build in the set! A simple box fold and a floor tile to stick it to in case you didn't want it to be permanently glued to the arena floor.
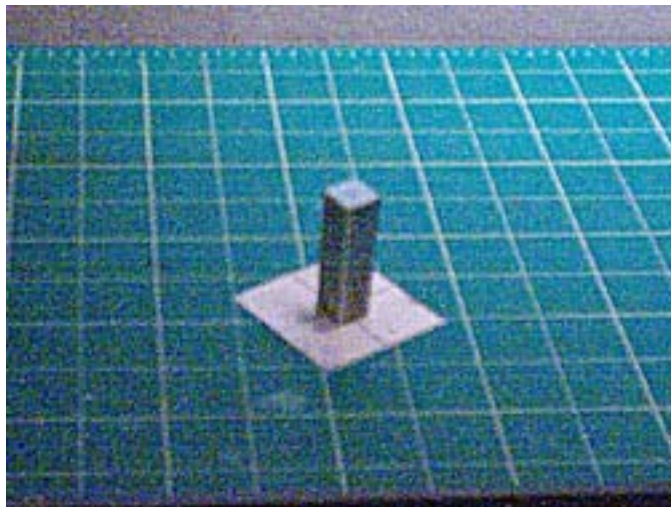

STEP 1:

Cut and score. Glue the long tab on the column, fold the sides over and press hard. Pop it back into a box, glue the end tabs and tuck them in. To secure, put a dot of glue on the end close to the manacles and press it onto the base. Hold until dry.
