STEP 1:

Cut and score as shown below. Apply an even coat of glue to the reverse side of the horses, glue and fold over. Press hard and set aside to dry. Apply glue to the entire reverse side of the chariot save for the shaft and large flap at rear. Fold up the sides as shown.

STEP 2:

Fold the insides of the wheels over. Fold the front bulkhead of the chariot, trapping the two side tabs inside. Apply glue to the reverse of the white areas at the end of the horse shafts and fold the flaps over. Finally fold the underside over and hold until dry. To attach the horses, apply glue to the white areas of the shaft and press onto the insides of the horses.
