This handy small tower was originally designed to flank the Grand Gate but is quite useful by itself. It has entrances on the ground and three inch levels. If you need more doors, use the "fixings" sheet.

**STEP 1:**

Cut and score as shown. Apply glue to the reverse of the battlements, fold over and press hard. Now is a good time to cut out the crenellations, it becomes much harder when it is folded up.

**STEP 2:**

Apply glue to the long end tab. Fold the tower together and press firmly. Glue the support tabs on top and fold the top down. Hold until dry.
