

## WEAPONS RACK

**Difficulty Rating (Out of 10): 3**

**Recommended Duplications: 4** (This generic weapon rack is at home in the torture room, barracks, treasure rooms'.well, everywhere really.)

**Steps:**

- Cut and score where marked. Be sure to cut straight through the dominant black line separating the models. Each sheet contains 4 weapons rack.
- Fold your models where scored
- Glue the beige tabs (glue tabs) to the inside of the rack section. **IMPORTANT:** As with most of the models in this set it is important that you use the Wooden Ruler Technique as noted in the beginners guide. It is impossible to get a good bond with your fingers alone on this model. When done properly your model should form a sturdy triangular shape.

That's IT! If you got lost or overloaded with this monster instruction list then refer to the photos.
