

Stalag Luft III

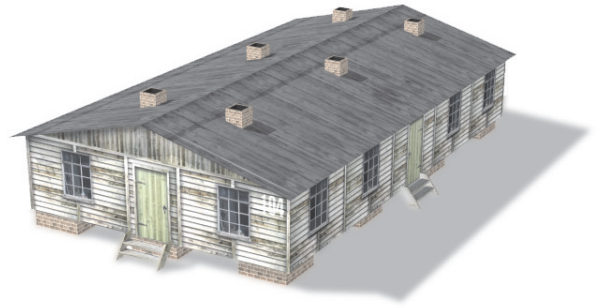

POW Barrack Hut

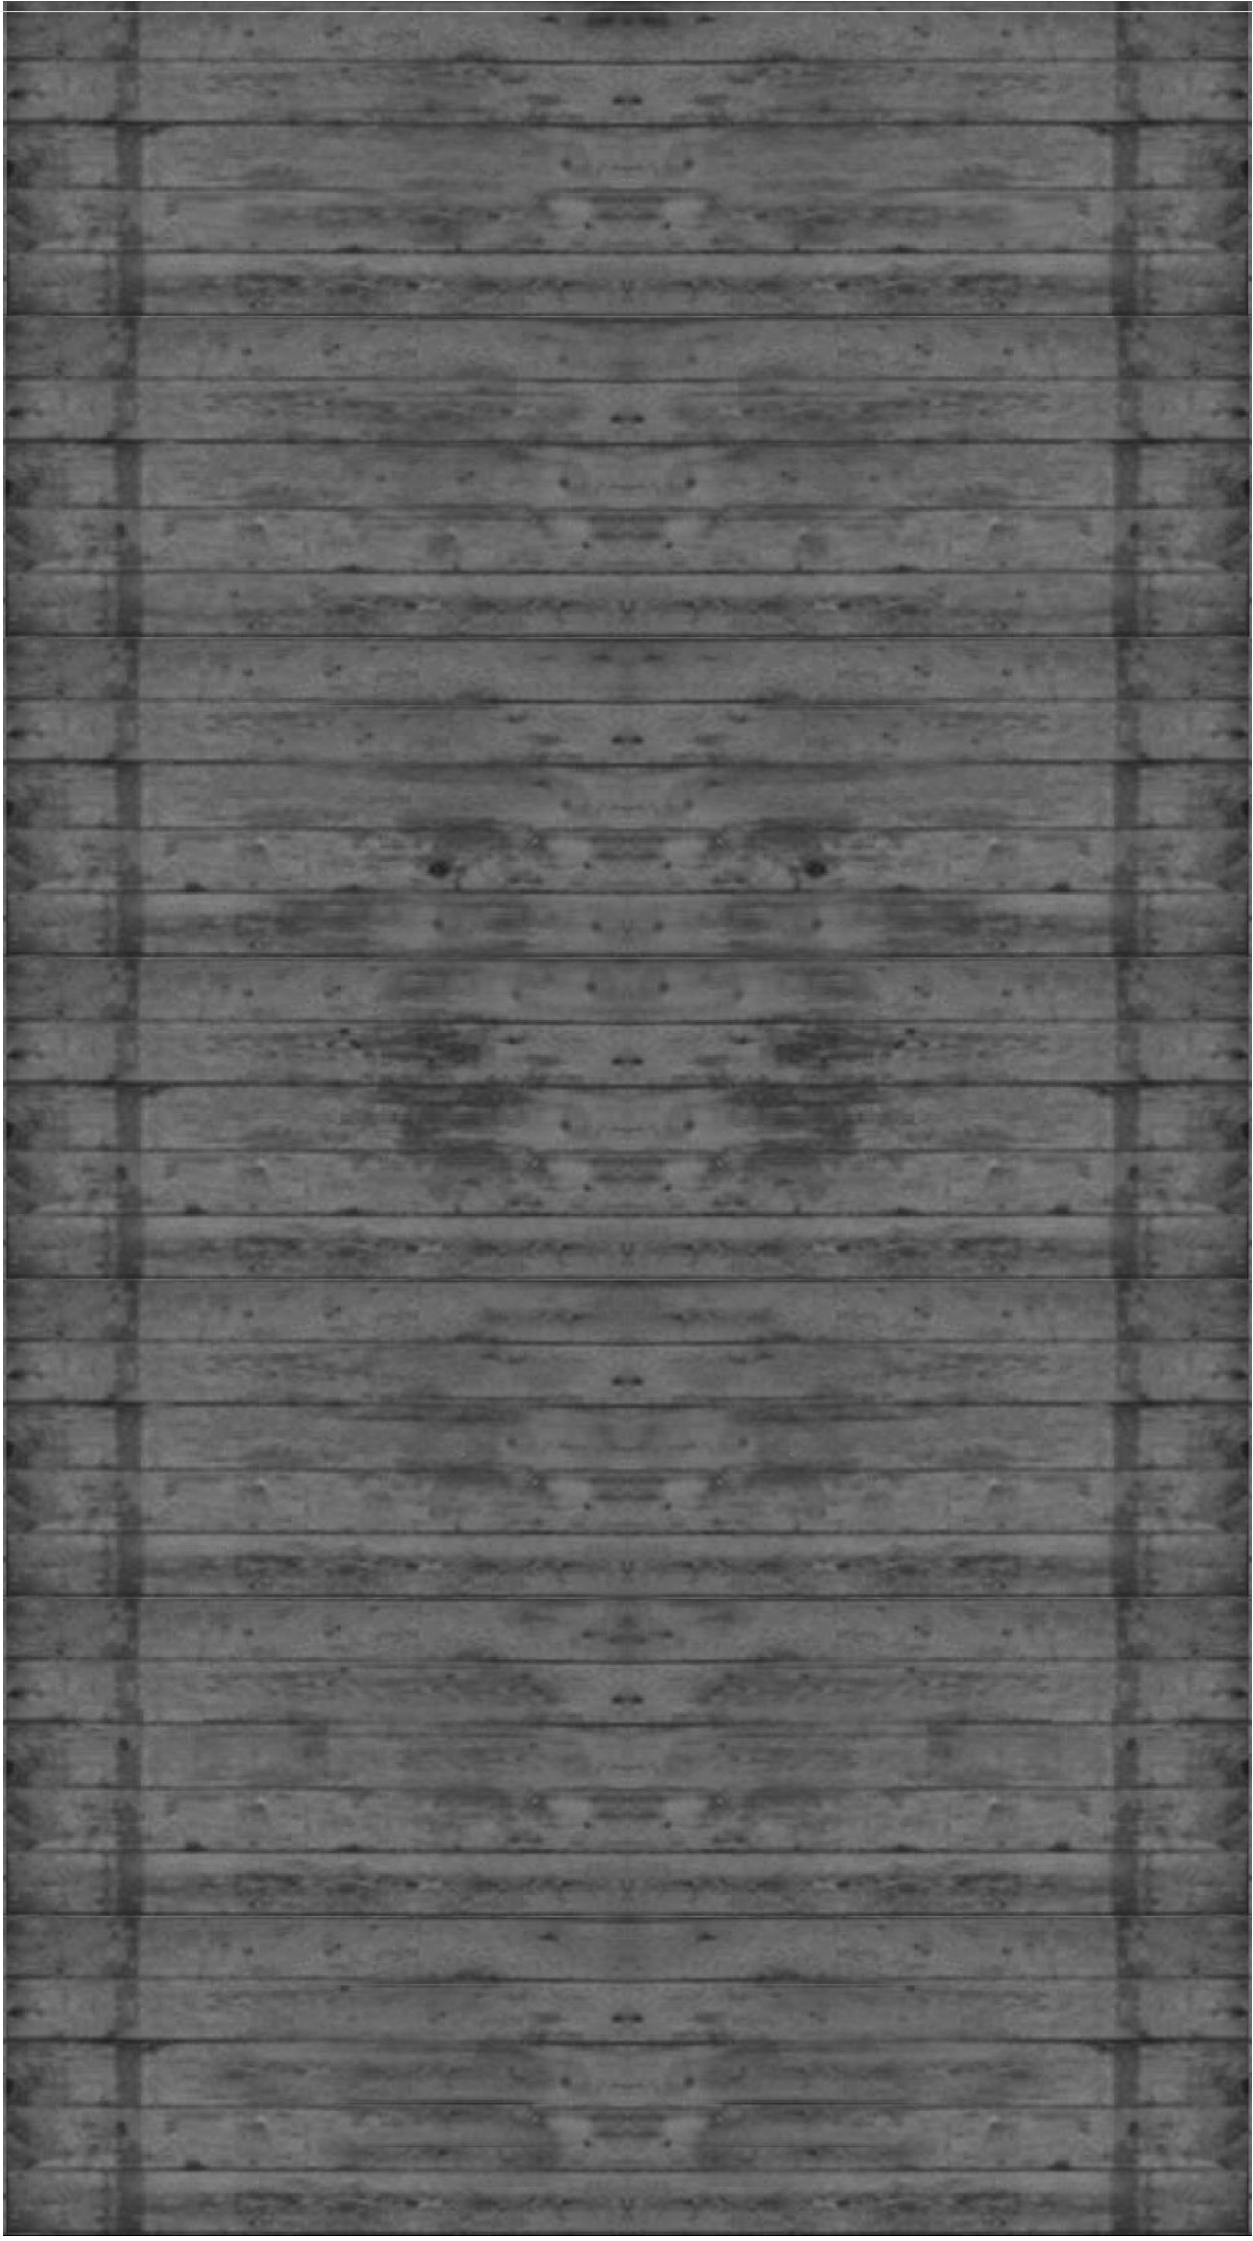

Stalag Luft III

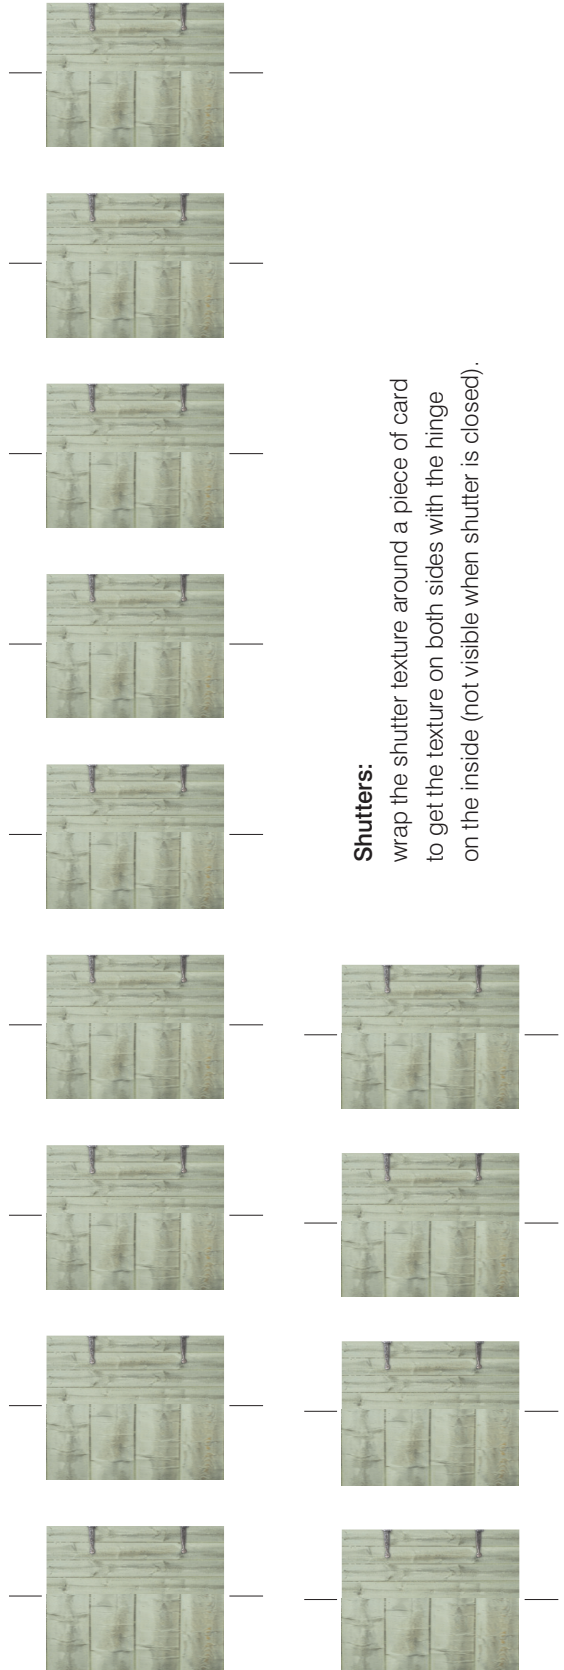

Printing instructions:

Simply print this page twice to get each end of the hut.
Use the alternative nos. provided to change the hut no.

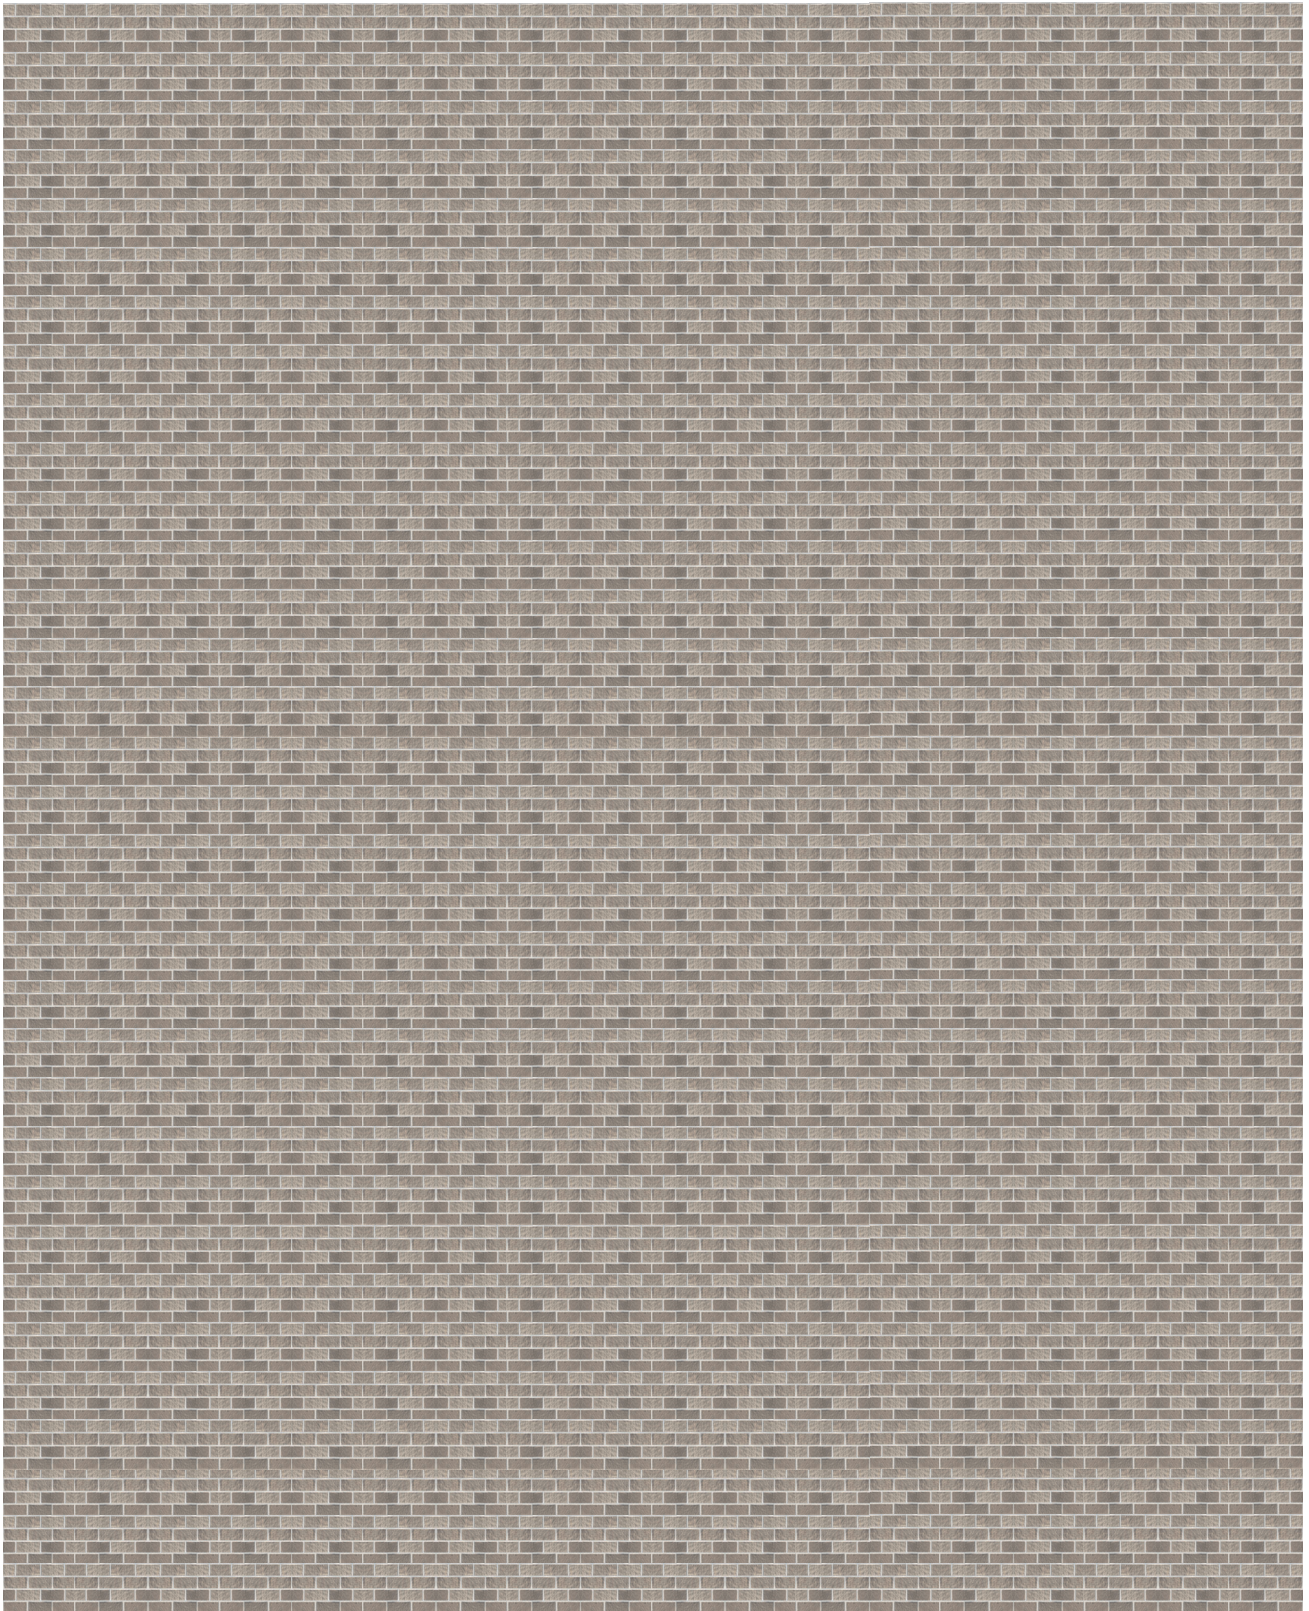

Stalag Luft III

Shutters:
wrap the shutter texture around a piece of card
to get the texture on both sides with the hinge
on the inside (not visible when shutter is closed).

Brick paper:

Use the brick paper to wrap around the foundation blocks and the chimney stacks. The chimney stacks are easily made from square plastic tubing obtained from a good hobby supply shop. If you have difficulty obtaining the suitable material contact me and I'll see if I can help. The foundation blocks are constructed simply from timber - 1 inch x 1 inch in size - cut rapidly into roughly 2 inch lengths and glued in place to the inside of the hut. Rest the hut on some 6mm dowl to get all the foundation blocks the same.
