

Canon Papercraft Mini-book

Toy series

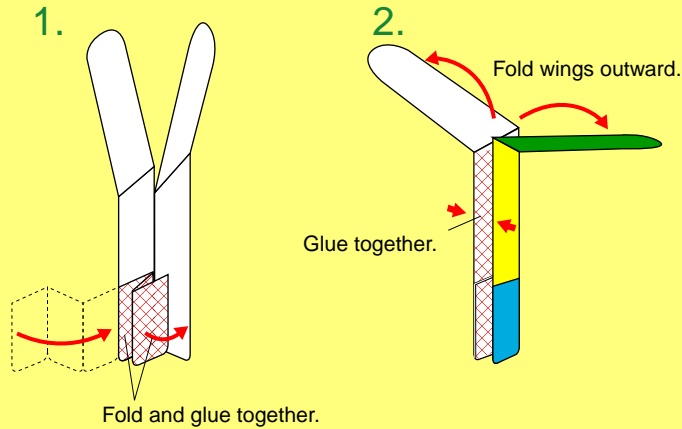

Helicopter

This is a toy helicopter which will slowly spin to the ground when dropped or thrown. As it falls due to its own weight, its two wings will catch the air and cause it to spin. Try dropping it and throwing it upwards to see what kind of motion it makes.

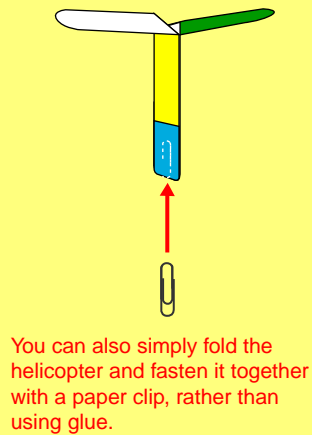

* Cut out the card above and save it. You can collect the cards from each of the Papercraft projects to make your own mini-book!

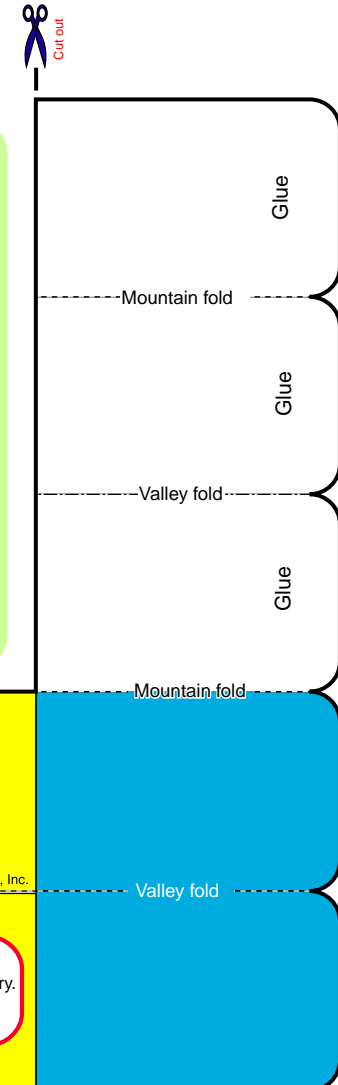

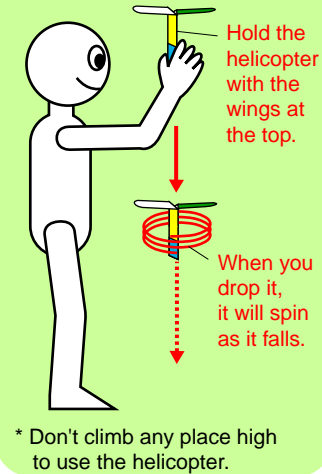

★ How to build it

★ Easier way to build it

★ How to fly it

Cut to the blue star (★).

- cut line
- - - mountain fold line
- - - valley fold line
