Valentine's Day Card

Saint Valentine was a priest who lived in the third century A.D., during the time of the Roman Empire. He is said to have performed marriages for young lovers, contrary to in imperial edict prohibiting young men from marrying. As a result, he became known as the patron saint of love in medieval Europe. It became customary for lovers to exchange cards and gifts on February 14, the traditional anniversary of his death.

This Valentine's Day card features the angel bringing a heart of love. Write your own personal message on this card and send it to someone special!
